# Interior Design Project Spotlight

T

he Modern Bride's new location in Guelph, Ontario, embraces a minimalist aesthetic with touches of extravagance, this is a space that exudes sophistication and luxury. We designed this space with the intent to create an unforgettable experience for brides that doesn't end with saying 'yes' to the dress, that's just the beginning.

After a bride has ordered her dress, this is where she will come to pick up her dress and try it on one last time before taking it home. Each dress arrival room is furnished with modern minimalist furnishings and features large windows that flood the space with light.

The boutique features custom millwork, meticulously designed to display a curated selection of bridal accessories and at the centre of it all is a gorgeous accessory island designed to house a beautiful Olive tree. Strategic lighting design accentuates the beauty of each piece, casting a soft glow that enhances the ambiance of the space.

To add a bit of the unexpected to the experience TMB brides will have exclusive access to a stunning Champagne lounge to celebrate their 'yes' with one of TMB's signature drinks or bubbly. Brides and their guests can also capture cherished moments in the photo booth, adorned with a luxurious velvet curtain, adding a touch of glamour to their experience. The champagne lounge serves as a focal point for celebration, featuring custom seating and details such as gold engraving at the entrance, welcoming each bride to the beginning of a new age with the sentiment, "the end of an era, start of an age." Here, they can toast to love and new beginnings, surrounded by elegance and warmth, making their bridal journey truly unforgettable.

# The Modern Bride Boutique

## Boutique Lobby & Accessory Displays

Above  
 Boutique lobby seating  
 To the left  
 Custom accessory island with  
 storage millwork

### Display Detail

Modern take on fluting, detail close up for accessory wall and storage millwork. Work/display surface using Caesarstone quartz.

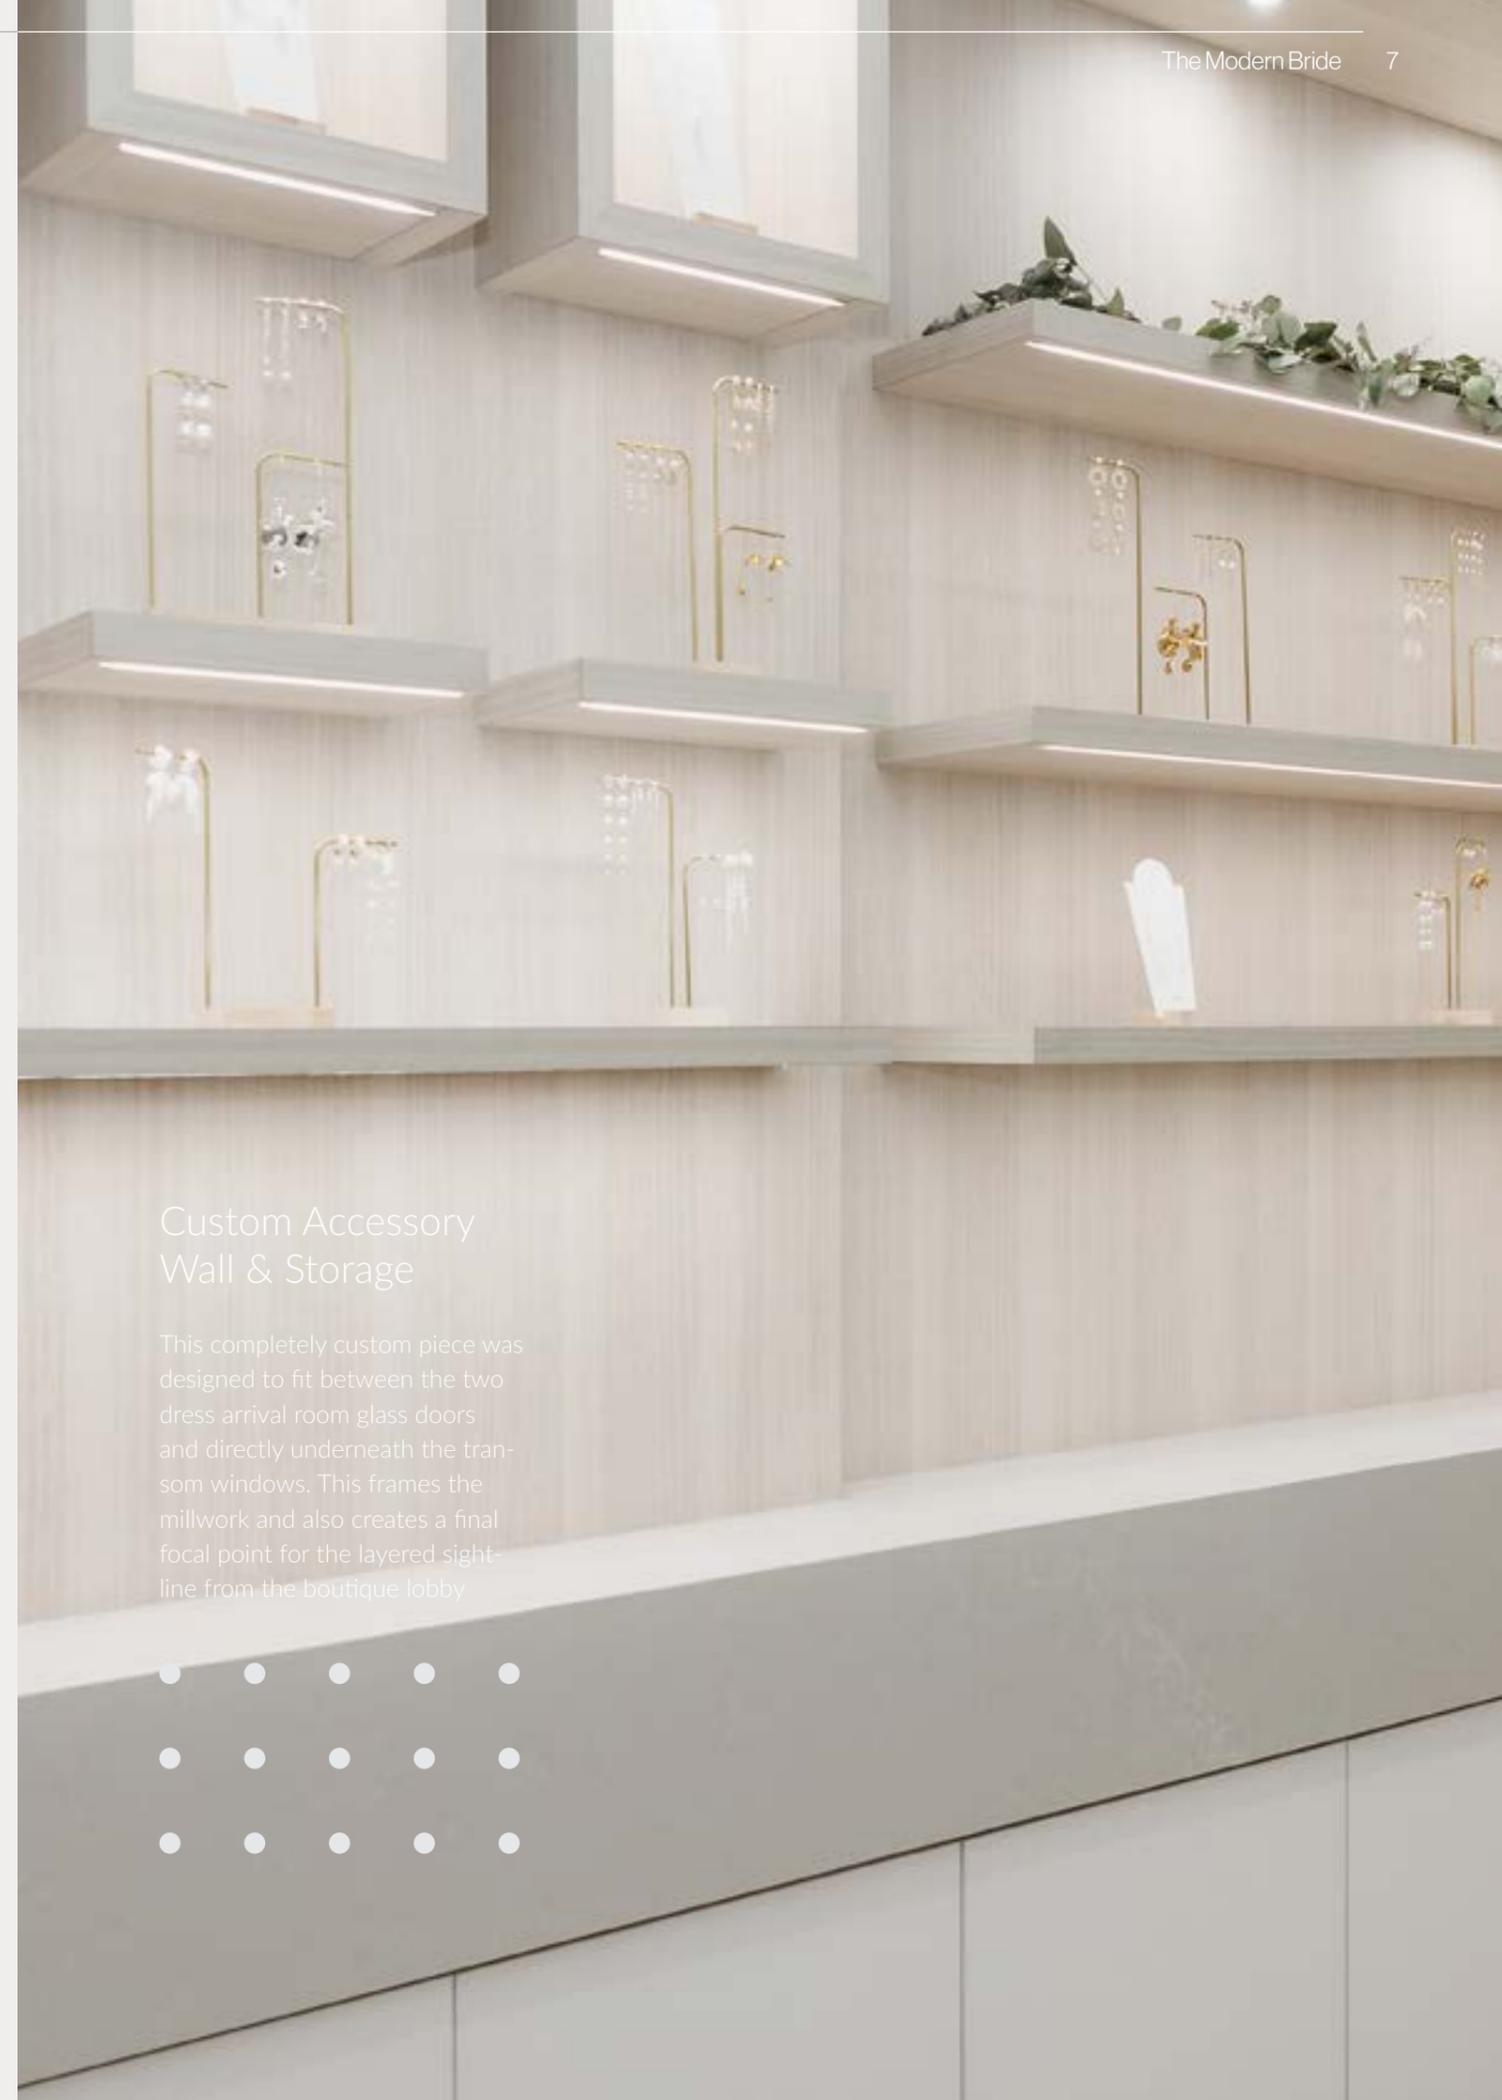

### Custom Lighting

Custom built in lighting and discrete undershelf LED lighting for jewelry display, set to optimum levels and temperature for Retail.

### Designed to Fit

Shelving custom designed to suite the display mounts but still offer flexibility for different layouts in some areas and Feature display areas for their featured jewelry designers.

### Custom Accessory Wall & Storage

This completely custom piece was designed to fit between the two dress arrival room glass doors and directly underneath the transom windows. This frames the millwork and also creates a final focal point for the layered sight-line from the boutique lobby

### Accessory Island Concept Work

Early rendering of the accessory island, tiered corner display and accessory wall millwork during the concept phase.

### Accessory Wall Concept Work

Below  
Early rendering for the accessory wall millwork concepts

## Dress Arrival Rooms

1.

### Dressing Room

Custom made Linen curtains

2.

### Veil Hooks

Typical veil types for brides to try with their dress

3.

### Bridal Party Seating

Plenty of comfortable seating for varying bridal party sizes

4.

### Casual Seating

Additional seating for larger Bridal parties

5.

### Bridal Pedestal

Pedestal custom designed for optimal comfort and safety while viewing your dress before and after alterations

6.

### Polished Concrete

Existing concrete uncovered and refinished to create a soft natural feel juxtaposed with the roughness of its aggregate and imperfections

7.

### Dress Hooks

Dressing room hooks & "No" hooks for outside dressing room.

## Viewing Pedestal

Image above  
Custom designed viewing pedestal, mature rubber plant, soft seating bathed in light from the oversized windows featured in each dress arrival suite.

## Bridal Party Seating

Image below  
Oversized mirror reflecting the minimalist seating area. Mature rubber plant to create biophilic connection, soft seating and textures to contrast the exposed concrete.
